

Full-Size Interactive Humanoid Robot

LIMiX Luna

Limitless Art, Fluid Motion

Born Elegant Born to Captivate

LimX Luna is a full-size interactive humanoid robot designed primarily for commercial performance scenarios.

It integrates high-dynamic motion control with multi-modal interaction, and provides a one-stop performance solution for shopping malls, tourist attractions, trade shows, and other entertainment venues.

160cm

Full-Size Body

27

Degrees of Freedom

Crafted in a New Design Language

- Full-Size Humanoid Form
- Expressive Interactive Display
- Premium Textile Finishes

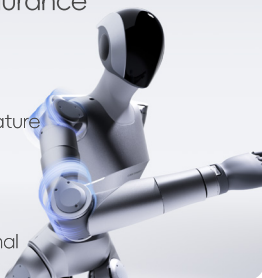

High Dynamics Built to Perform

- Second-Generation Sys 0 Engine
- Upgraded Joint Motors
- Dynamic Motion Capability

Advanced Cooling Extended Endurance

- **30%** Decline in Joint Surface Temperature
- **150%** Boost in Battery Life
- Upgraded Thermal Management

Multi-Layer Protection Peace of Mind

- Active Fall Mitigation
- Hardware E-Stop
- External Force Sensing
- Safe Action Override
